विद्युत अभियांत्रिकीच्या विद्यार्थ्यांकडून वृक्षारोपण

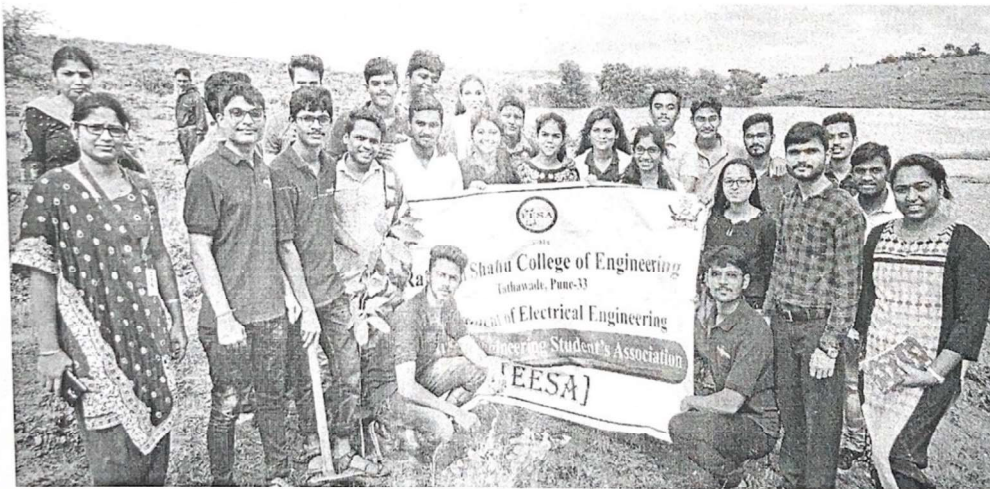

राजर्षी शाहू अभियांत्रिकी महाविद्यालयातील विद्युत विभाग विद्यार्थी

संघटना आणि रोटरी क्लब वाल्हेकरवाडी यांनी "मिशन ट्री प्लांटेशन" या महाराष्ट्र शासनाच्या उपक्रमांतर्गत, "वृक्षवल्ली आम्हा सोयरे वनचरे" तुकाराम महाराजांच्या ओवीचे महत्व लक्षात घेऊन पुण्यक्षेत्र देहू येथील गायरान परिसरात २४० झाडे लावली. महाविद्यालयातील ५६ विद्यार्थी, ६ प्राध्यापक, ३ सहाय्यक आणि रोटरी क्लबचे प्रमुख श्री. हरपुडे (सहपरिवार) आणि अन्य सदस्य यांच्या उपस्थितीमध्ये हा कार्यक्रम संपन्न झाला. डॉ. तृप्ती हिंगे यांनी कार्यक्रमाचे संयोजन केले आणि लावलेल्या वृक्षांचे संगोपन करण्यासाठी नेहमीच कार्यरत राहण्याचा निश्चय केला. कॉलेजचे प्राचार्य डॉ. जैन आणि विद्युत विभाग प्रमुख डॉ. चव्हाण यांनी या उपक्रमासाठी प्रोत्साहन दिले.

Tree Plantation Drive by EESA-RSCOE

Electrical Engineering Students Association (EESA) of Rajarshi Shahu College of Engineering (RSCOE) has organized a Tree Plantation Drive on 10th August 2019 along with Rotary Club (RC) Walhekarwadi under the "Mission Tree Plantation" an initiative by Govt. of Maharashtra. 240 samplings including Guava, Mango, Jamun, Custard Apple, Neem etc. are planted at "Gairan" a hilly place Dehu. Apart from 56 students, 6 faculty and 3 lab assistant of RSCOE electrical, president Mr. Harpude with family and other members of RC were also present and participated in the drive. Dr. Trupti Hinge organized the event and addressed students about the importance of tree plantation and planned future visits to nurture the trees. RSCOE Director Dr. Jain and Head of Electrical Department Dr. Chavan encouraged students for this activity.

**“SOCIAL ACTIVITY REPORT: SOCIAL
AWARENESS OF EDUCATION AND
CLEANLINESS”**

Social activity is arrange for TE students on 01/11/2020

Day & Date of Webinar : 01/11/2020

No. of students Attended : 50

Coordinator : Mr. Aabid Mulla

Venue : TY Classroom

Report:

Introduction:

This report outlines the details and outcomes of a social activity conducted under the auspices of the Institute of Electrical and Electronics Engineers (IEEE) aimed at fostering social awareness of education and cleanliness. The event was organized for TE (Third Year) students by Ms. Manjusha Kanawade and led by Mr. Aabid Mulla. The activity took place on November 1, 2020, with the objective of promoting the importance of education and cleanliness in the community.

Objective:

The primary goal of this social activity was to create awareness among the participants, particularly TE students, about the significance of education and cleanliness in their lives and the impact it has on society as a whole. The event aimed to encourage students to take an active role in promoting education among underprivileged individuals and maintaining a clean and hygienic environment for the well-being of the community.

Event Overview:

The social activity was structured to include a combination of interactive sessions, practical demonstrations, and group discussions to engage the TE students effectively. The event took place at a local community center and was attended by approximately 80 TE students from various educational institutions.

Agenda:

1. Introduction and Welcome: Mr. Aabid Mulla initiated the event by welcoming the participants and providing an overview of the day's activities.
2. Education Awareness Session: Ms. Manjusha Kanawade delivered an insightful presentation on the importance of education in personal growth and community development. She emphasized the role of education in eradicating poverty and promoting equality.
3. Cleanliness Drive: Following the education awareness session, the participants actively participated in a cleanliness drive in the vicinity of the community center. The students were divided into groups and were provided with cleaning materials, including gloves and garbage bags.
4. Group Discussions: After the cleanliness drive, the students were divided into smaller groups to discuss their experiences and the importance of maintaining cleanliness in public spaces. They also brainstormed ideas on how they could contribute to cleanliness in their daily lives.
5. Awareness Skit: To reinforce the message of education and cleanliness, some students prepared and performed a short skit depicting the consequences of neglecting education and cleanliness. The skit was both entertaining and thought-provoking.
6. Q&A and Feedback: The event concluded with a Q&A session, during which participants could seek clarification and share their thoughts on the activity. The feedback collected was constructive and positive, indicating that the objectives of the event were met.

Outcomes:

The social activity achieved its intended objectives and left a lasting impact on the TE students. The outcomes of the event were as follows:

1. Increased Awareness: Participants gained a deeper understanding of the importance of education and how it can bring about positive change in their lives and society.
2. Community Involvement: The cleanliness drive encouraged students to actively participate in community initiatives and instilled a sense of responsibility towards maintaining a clean environment.
3. Empowerment: The event empowered the students to become advocates for education and cleanliness, inspiring them to take action in their respective communities.
4. Team Building: The group activities and discussions promoted teamwork and camaraderie among the students.

Conclusion:

The IEEE social activity on "Social Awareness of Education and Cleanliness" was a resounding success. Thanks to the efforts of Ms. Manjusha Kanawade and the guidance of Mr. Aabid Mulla, the event effectively communicated the importance of education and cleanliness to the TE students. It encouraged them to take active steps in promoting education and maintaining a clean environment, thus contributing to the betterment of society as a whole. Such initiatives play a crucial role in shaping responsible and socially aware individuals who can be leaders in their communities.

EVENT: Electrical Safety Week (2020)

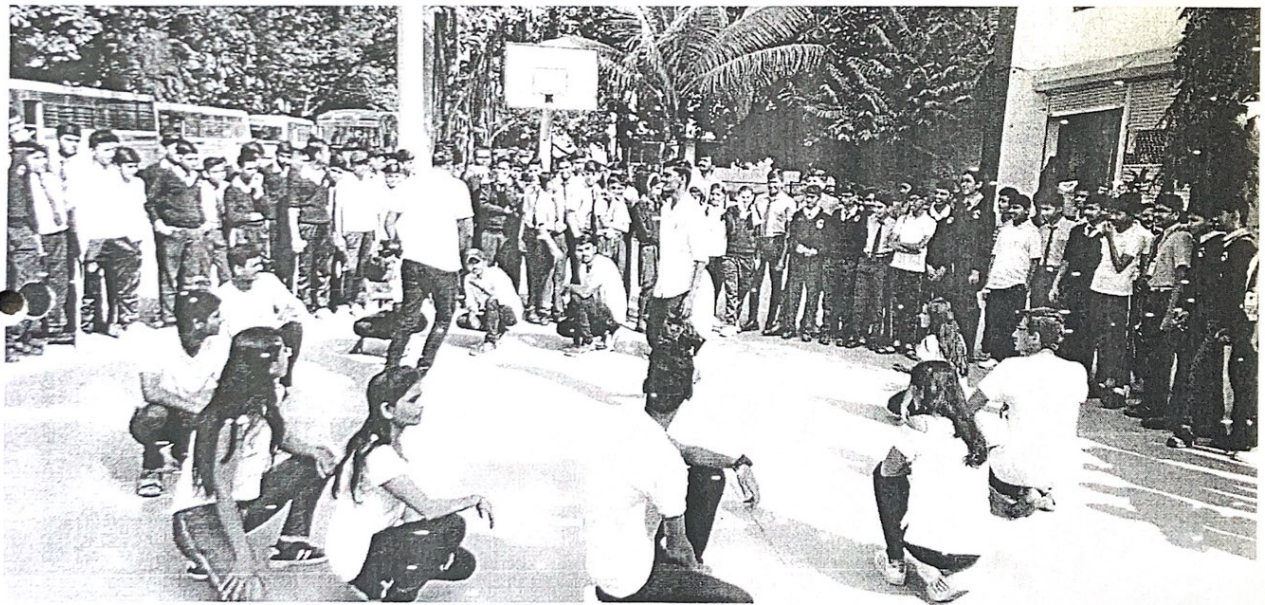

Date of event	14 th Jan 2020 to 15 th Jan 2020
Time	08:30 P.M-4:30P.M
Name of Event	Electrical Safety Week
Organized by	Department of Electrical Engineering JSPM's Rajarshi Shahu College of Engineering, Tathawade Pune

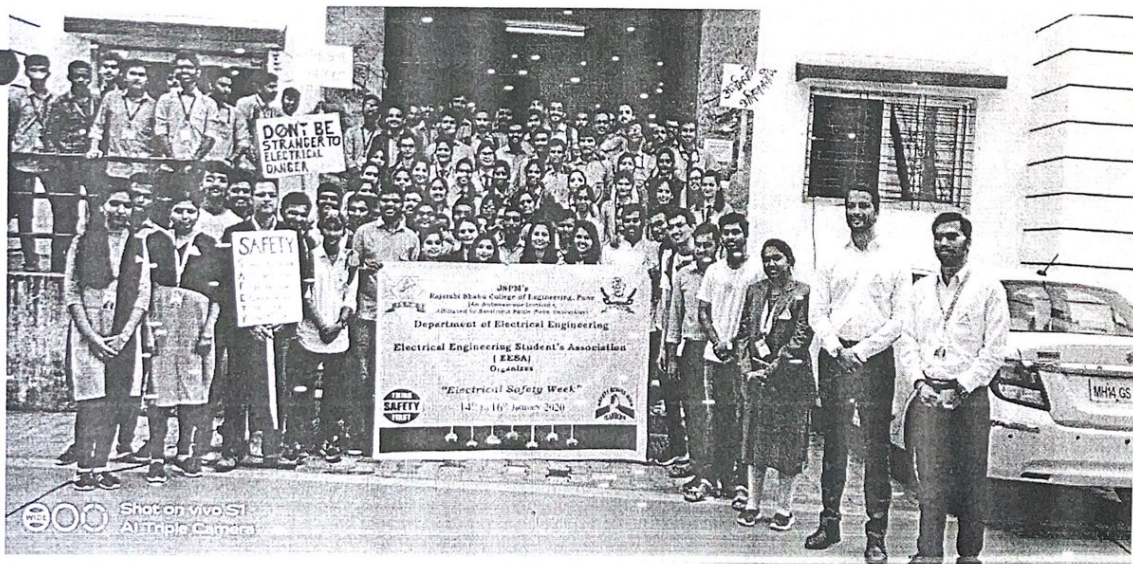

Department of Electrical Engineering celebrated Electrical Safety Week from 14th Jan 2020 to 15th Jan 2020. The objective of this initiative was to create awareness about electrical safety among Electrical Engineering Students and sensitize them on how to mitigate risks in such situations. The 2-days celebrations included various interactive and creative programs such as Poster competition, Awareness Session, Rally and Safety Audit in college campus, Blossom School and Sonigara Vihar Society, Kalewadi, Pune. Electrical Engineering Students were encouraged to take a safety oath as well.

Inauguration of Electrical Safety Week

- ❖ We were delighted to have chief guest Dr.Santosh Patani (MSETCL Head Training Centre, Pune) for this Electrical Safety Week Inauguration function. The inauguration of function started with the saraswati poojan by chief guest, Prof. Kamlakar Unhalkar-Director, Dr.A.S.Deosthali-Vice-Principal RSCOE, Dr. S.L.Chavan (Head of Department), all Teaching Staff and Students.
- ❖ Dr.A.S.Deosthali-Vice-Principal RSCOE shared his view about the need of Electrical Safety and promised to do better in future also.
- ❖ Chief Guest Dr.Santosh Patani (MSETCL Head Training Centre, Pune) promoted students for Awareness about Electrical safety and hazards causing due to not following safety rules. He expressed his views on importance of safety for creating a good environment.
- ❖ Dr. S.L.Chavan (Head of Department) expressed vote of thanks towards all the dignitaries on behalf of Department of Electrical Engineering.
- ❖ After Inauguration all dignitaries and students visited to Poster Competition.

Report on Poster Competition

On the occasion of Electrical Safety Week which is celebrated during 11th-17th January 2020, Department of Electrical Engineering, JSPM's Rajarshi Shahu College of Engineering (An Autonomous Institute, Affiliated to SPPU) Pune organized Poster Competition on "**Electrical Safety**" for FE to BE Engineering students on 14th January 2020. Total 36 participants were presented their posters.

Inaugural session at 11:30 am

Chief Guest Dr. Santosh patani, Dy. Chief Executive Engineer, MSETCL inaugurated the event and addressed the audience about the importance of Electrical Safety. Mrs. G. S. Renapurkar and Mrs. H.S. Joshi co-ordinated for the poster competition. Dr. Santosh patani was invited as a judge for the same.

Head of Electrical Department Dr. S. L. Chavan proposed the vote of thanks and acknowledged perpetual support of teaching, non teaching and student volunteers.

Expert lecture on “An Opportunity in Civil Services”

Expert lecture on “An Opportunity in Civil Services” was organized at institute level event was organized by Assistant Professor Dr. Trupti Hinge, JSPM's RSCOE, Pune for all Students

Day & Date of event: Thursday, 9th May 2020

No. of students attended : 90

Name of resource Person : Dr. K.K. Jadhav

Mode : Online

Description / Report on Event:

The Electrical Engineering Department has organized a Expert lecture on “An Opportunity in Civil Services” for all Students Assistant Professor Dr. Trupti Hinge mam gave brief introduction of Dr. K.K. Jadhav and later on addressed the students regarding the topic.

They talk towards providing skills to students who are interested in pursuing careers in public service. Through this initiative, addressing the needs of its student community in a couple of ways. They recognised the lack of opportunities for students who would like to pursue training for top-tier competitive exams viz., UPSC, APPSC, and other State Public Services Commission. The session by giving an overview of the level of competition in UPSC Civil Services Examination. He quoted that there are mainly three services (IAS, IPS and IFS) that most of the CSE aspirants aspire to become, thus requires the successful candidate to score in the top few hundreds to achieve it. He suggested students to utilise the opportunity of using Economically Weaker Section reservation if applicable to get into the desired service.

Assistant Professor. Dr. Trupti Hinge concluded the session, where she briefly reviewed some of the main points of the session, she also proposed vote of thanks to our distinguished speakers and participants

Seminar on “Scientific Research Paper writing: Tips and Tricks”

One day seminar on “Scientific Research Paper writing: Tips and Tricks” was organized at Institute level event was organized by Assistant Professor Mr. Kushal Lodha, JSPM's RSCOE, Pune.

Day & Date of event: Saturday ,28th September 2019.

No. of students attended : faculty

Name of resource Person : Dr. Nilanjan Dey

Mode : Online

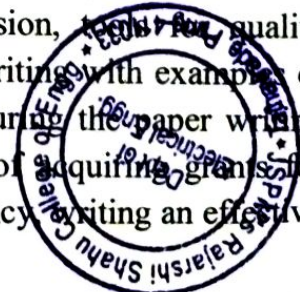

Objective of the event: The primary aim of organizing this seminar was to familiarize with writing effective technical papers.

Description / Report on Event:

The Electrical Engineering Department has organized a guest lecture for JSPM RSCOE faculty . Assistant Professor. Mr. Kushal Lodha sir gave brief introduction of Dr. Nilanjan Dey and later on addressed the students regarding the topic.

Dr. Nilanjan Dey sir delivered the presidential address and briefed about the importance of publication and encouraged all delegates to their students. Sir, emphasized that writing the quality papers helps advancing knowledge and encouraging communication.

Session was started with the topic Writing Effective Research Papers for SCI Journals. During the session He explained about research methodology, selection of a journal, structure of a journal, language issues, presentation of results and discussion, tips for quality Improvement. During the session he also explained the method of writing with examples of sample exercises. He also briefed about how to avoid plagiarism during the paper writing process, the importance of funding and challenges in the process of acquiring grants for sponsored research, list of funding agencies, selection of funding agency, writing an effective proposal, salient point to remember when write a proposal.

Assistant Professor. Mr. Kushal Lodha concluded the session, where he briefly reviewed some of the main points of the session, he also proposed vote of thanks to our distinguished speakers and participants

Webinar on “Design Thinking in the age of COVID19”

One day webinar on “Design Thinking in the age of COVID19” was organized at institute level event was organized by Assistant Professor Mr. Sandeep Gaikwad , JSPM's RSCOE, Pune for Faculty

Day & Date of event: Friday ,5th June 2020.

No. of students attended : 90

Name of resource Person : Dr. Ashok korawar

Mode : Online

Description / Report on Event:

The Electrical Engineering Department has organized a webinar on “Design Thinking in the age of COVID19” for faculty. Assistant Professor Mr. Sandeep Gaikwad sir gave brief introduction of Dr. Ashok korawar and later on addressed the students regarding the topic.

They just told that Design thinking is a human-centered approach to innovation—anchored in understanding customer's needs, rapid prototyping, and generating creative ideas—that will transform the way you develop products, services, processes, and organizations. By using design thinking, you make decisions based on what customers really want instead of relying only on historical data or making risky bets based on instinct instead of evidence. Design thinking brings together what is desirable from a human point of view with what is technologically feasible and economically viable.

Desirability: What makes sense to people and for people?

Feasibility: What is technically possible within the foreseeable future?

Viability: What is likely to become part of a sustainable business model?

Assistant Professor. Mr. Sandeep Gaikwad concluded the session, where he briefly reviewed some of the main points of the session, he also proposed vote of thanks to our distinguished speakers and participants

41. Session on "Good Habits of Personal Hygiene and Diet" by Dr. Shraddha Bhosale

Organized by : Shaashwat Club

Conducted by: Dr. Shraddha Bhosale

Collaboration: Government of India

Date: 20/01/2019

The importance of personal hygiene in our lives is indisputable, yet many are unaware of it. So, we've put together everything you must know about personal hygiene. Let this be your guide to a healthy and hygienic life as you recognise the importance of personal hygiene. Maintaining good personal hygiene helps you in the following ways:

- It protects you from infections or diseases that could weaken your immune system.
- It prevents you from spreading the infection to your loved ones and people you interact with daily.
- It helps maintain your skin's pH levels, making it healthy and glowing over time.
- It helps you avoid getting into unpleasant situations wherein people are disgusted by your presence due to foul odor.
- It helps you regain your confidence, appear attractive, and enhance your appearance.
- It allows people to believe and entrust responsibilities to you, which could involve planning a safe and hygienic event for everyone

This session was very important because in this session all about the hygiene is known to us

44. Session on “Health issues of women and care to be taken” by Dr. Manasi Patil Cloth Bag Distribution.

Organized by : Shaashwat Club

Conducted by: Dr. Manasi Patil

Collaboration: Government of India

Date: 22/01/2020

A woman's life expectancy has increased from 48.3 years in 1900 to 79.4 years in 1997. Today, our challenge is to make those extra years of life healthy and productive . Women represent 51 percent of the total U.S. population; 59 percent of the over-65 population; and 71 percent of Americans older than age 85, the fastest growing segment of the population. Women also constitute 46 percent of the nation's workforce. They make up 52 percent of the voting-age population, and they are more likely to vote in national elections than are men. In 1996, 55.5 percent of women voted in contrast to 52.8 percent of men. A woman's health reflects both her individual biology and her sociocultural, economic, and physical environments. These factors affect both the duration and the quality of her life . For example, the average life expectancy for a woman varies considerably according to her race . In 1997, the average life expectancy for white women was 5 years longer than that of African American women (80 years versus 75 years) . Women who live in poverty or have less than a high school education have shorter life spans; higher rates of illness, injury, disability, and death ; and more limited access to high-quality health care services . Historically, women have also been the primary health care providers and health decision-makers for their families . Nearly two-thirds of women polled in a recent national survey indicated that they alone were responsible for health care decisions within their family, and 83 percent had sole or shared responsibility for financial decisions regarding their family's health . Women are also the primary care givers for ill or disabled family members. Of the estimated 15 percent of Americans who are informal care givers, an estimated 72 percent are women-many of them sandwiched between caring for an ailing relative and caring for their own children .
